Identification & Signature Requirements

Per DMV Procedure TL-01, section III, if the title work includes a completed form HSMV 82040 with the applicant's **Florida driver license or ID card** number, the paperwork will be accepted without a copy of the applicant's proof of identification.

However, if the applicant's proof of identification is **something other than a Florida driver license or ID card**, the dealer must submit a copy of this proof with the application. Acceptable forms of identification are:

1. A valid out of state driver license or identification card with photo;
2. A valid U.S. passport;
3. A valid Canadian driver license, identification card or passport;
4. A valid driver license or identification card from any U. S. Territory;
5. A valid out-of-country passport

If a passport is used, we must have a copy of the pages containing the personal data, bearer's signature and photo (do not copy Visa pages).

If the applicant is a business or other legal entity, you must provide documentation to prove the validity of the business or entity, such as: copies of governmentally filed FEID documents, fictitious name documents, incorporation papers, "Certificate of Status" from the Department of State, etc.

A business applicant must provide a federal employer identification number, if applicable, verification that the business is authorized to conduct business in the state, or a Florida city or county business license or number.

You can also go to www.sunbiz.org to obtain proof. This proof must be submitted to the Tax Collector's Office with the HSMV 82040.

We no longer accept any dealer paperwork which does not meet the identification requirements detailed above, regardless of the date on which the vehicle was sold, or the date on the paperwork.
